

UNLEASH THE POWER

i-lube

INTER-LINK RESOURCES INC

IMAGINE THE POSSIBILITIES

Innovative Software Solutions

CORTEX

Our centralized backoffice solution (Cortex), allows you to access all stores in your chain

Inventory, employee records, reports, fleets, and fleet statements can all be accessed live remotely

All reports, comparisons and vital information is available at the centralized server.

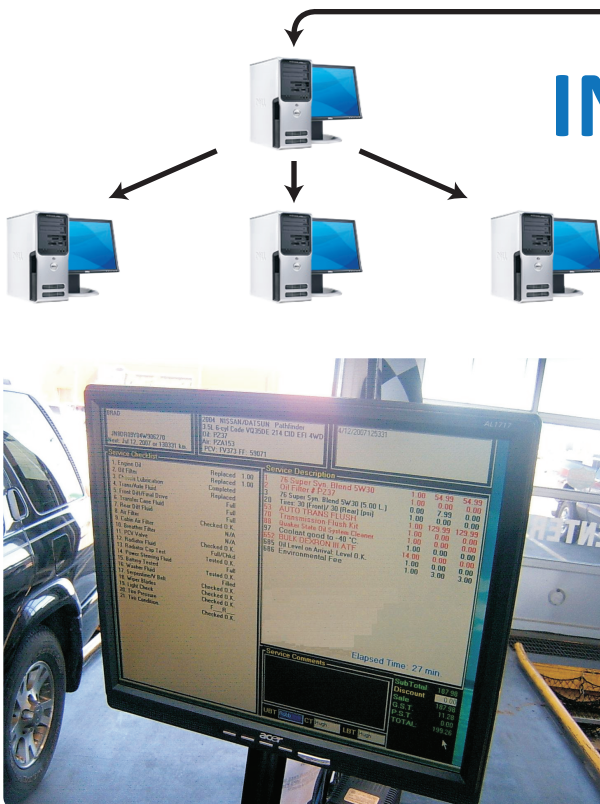

Fleets can be centrally managed and Cortex has the ability to link fleet invoices across multiple stores to one fleet statement.

Date	Invoice	Payment	Comments
11/26/2006	2101582	50.45	
11/26/2006	2101581	50.45	
11/26/2006	2101580	50.45	
11/25/2006	2101569	37.10	
11/25/2006	2101571	79.50	
11/25/2006	2101572	37.10	
11/25/2006	2101573	37.10	
11/25/2006	2101574	50.45	
11/25/2006	2101575	50.45	
11/25/2006	2101570	37.10	

INTERNET BASED LINK

Now your customers can check, print or save their vehicle service history from their own home! They simply click on your website- enter their license plate, password and e-mail address! And voila! Instant service history viewing! They won't have to come into your store to reprint their invoices!

Fleets can use this to check their balances, re-print invoices, and even send payments all via your website!

OUR TECHNOLOGY

POINT. SCAN. DONE.

HANDHELD GREETER

- **Point.** Scan the vehicle VIN code which accurately returns year, make, model, engine size linking directly to Chek-Chart™ Data
- **Eliminates technician errors** with engine codes, filter choices
- **Customer Service.** Meet customers at their windows, view their service history, service recommendations based on their mileage, and select the services they want that day all on the hand-held Greeter!
- **Show customers on the screen** which services are recommended by the manufacturer and which ones they are overdue for.
- **Scanner will work within 600 feet** of the shop allowing for vehicles to be checked in well before they are in the bay.
- **Reduce frustration, reduce customer drive-aways, improve the quality, accuracy, and professionalism of service** you provide.
- **Done.** Send the information to the bay computer, i-lube does the rest!

V.I.N SCANNER / INVENTORY SCANNER

Scan the VIN: if they have been in before, the scanner will return their name and previous history. Impress them! Greet them with their name! Enter their mileage, choose the services they want that day- even recommend services to them based on their service review. Send it all into the bay. It's that easy...

Inventory Control:

Receiving Inventory? Simply scan the UPC code(s), enter the quantity received and that's it! The item(s) will be entered into inventory! The scanner can also be used to sell inventory such as wiper blades, etc, simply scan the UPC code and the item will be entered on the invoice! Its that simple with I-lube!

The P370 and MC3090 cordless RF VIN code scanners from Symbol are rugged, high-performance wireless devices that enable instant and seamless communications. Designed with a comfortable forward-scanning pistol grip to minimize fatigue, they are durable and lightweight. The wireless range allows you to even scan in vehicles waiting outside the shop!

WE UNDERSTAND YOUR BUSINESS

WE'VE WORKED IN YOUR BUSINESS...

I-lube was designed by people with real-life fast-lube experience. It doesn't make sense to buy a computer system designed by some computer geek in an office. Get Real. Get i-lube.

Industry firsts for making employees jobs just that much easier:

- one-keystroke Chek-Chart™ Lubrication guide data all on one screen
- one-keystroke instant on-line filter catalogues
- one-keystroke instant recall of past historical invoices- view entire past invoices on ONE screen!

I-lube will help your employees increase car counts, increase average tickets and keep your shops full! How? Ease of use. When a lube technician can learn the POS quickly, then its easy to focus on changing oil. Tired of fumbling through 1000 page manuals? Tired of endless support calls? Maybe it's time to get real. Maybe it's time for i-lube.

CHOOSE YOUR HARDWARE AND WE'LL PROVIDE THE SOFTWARE

WINDOWS

MAC

LINUX

That's right we are the first POS company in the industry to offer our i-lube server on your choice of hardware. Have an old linux/unix POS that you want to replace? Now it's more cost effective than ever to choose i-lube, by running i-lube on your existing hardware.

I-LUBE FEATURES

I-LUBE FEATURES

EXTENSIVE REPORTING

I-lube now offers nearly 50 different reports ranging from Sales Reports, to Projected monthly, quarterly and yearly sales, to an extensive list of fleet/AR reports to employee commission/sales reports and so forth. We feature at least 3 reports that are industry firsts- none of our competitors have them. Reports that are easy to use? You bet. Reports that deliver accurate, concise information? You bet. With i-lube it's just that simple. I-lube is the easy decision when it comes to Fast-Lube POS computer systems.

BUILDING PARTNERSHIPS, A MESSAGE FROM THE PRESIDENT

Customizing i-lube™ for our clients - the road ahead...

As the founder, and president of Inter-link Resources Inc., I wish to thank you for taking the time to review this brochure. Over the past few years we've experienced phenomenal growth; we are rapidly expanding, and are striving to achieve one goal- to provide the best POS system in the world. I-lube is now used on 3 continents in 4 different countries; with our largest customer base across the United States and Canada.

This phenomenal growth that we have experienced is due to two factors: the quality of our product, and the fact that we'll customize i-lube and tailor it to meet our customers' needs. Our goal is simple. Over the next 10 years, we want to become the largest company in the fast-lube POS business bar none. In the best interests of our clients, we have established important relationships with larger companies within the fast-lube and technology industries such as Chek-Chart™, Motor Information Systems, Microsoft, Symbol, MySQL, and Dell to name a few. These relationships will ensure that our POS system will continue to evolve with accurate and consistent, on-line data and vital vehicle statistical information. At Inter-link, every one of our customers is important, and we have built our business one customer at a time. We pride ourselves on our support, service and personalized relationships, and within this framework, I invite you to personally contact me at any time, for any reason. With our innovative technology, we provide the most comprehensive and complete POS system in the fast-lube industry and we look forward to helping your business grow.
